

# LNG Americas overview

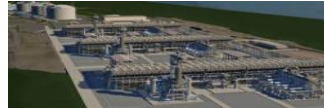

**LNG Americas Inc. manages SK LNG Value Chain from US upstream development to LNG export, and serves as the regional base for expansion to Latin America and Europe**

## Feed Gas

- **Upstream Investment & Development**
- **Gas Marketing**

## LNG Export

- **LNG Export Terminal** (Freeport LNG)

## Shipping

- LNG Carrier

## LNG Import

- LNG Import Terminal

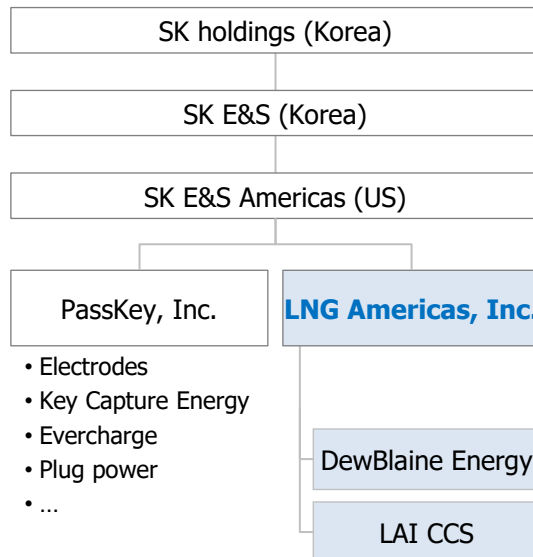

## Retail

- Power Plants and city gas in Korea and other markets

LAI

## Structure

## SK E&S Brief introduction

- SK E&S, established in 1999 and based in Seoul, the Republic of Korea, is an affiliate of SK Group, one of the country's top three business conglomerates with about \$106 billion in annual global revenue and more than 110,000 employees worldwide as of 2020.
- SK E&S is Korea's largest privately-owned liquefied natural gas (LNG player) with globally integrated value chain from upstream natural gas field to midstream LNG regasification terminal and LNG carriers and to downstream city gas distribution, power generation, and district heating cogeneration businesses in Korea. In addition to the strong LNG value chain, SK E&S invests mainly in four growth sectors: Renewables, Energy Solution, Hydrogen and Clean LNG with carbon capture, utilization, and storage (CCUS) technology. In the Renewables and Energy Solution sectors, SK E&S is a leading renewable energy generator with more than 2.5 GW of solar, wind, and fuel cell project portfolio in Korea, and it is expanding to Southeast Asian markets such as Vietnam, etc. SK E&S currently operates about 700 megawatt hours (MWh) energy storage both in Korea and the U.S., including the largest distributed battery energy storage system (BESS) portfolio in California.
- Dewblaine : Shale Gas Development by Joint Venture between Continental and SK E&S
- LAI CCS : CCS(Carbon Capture, Storage) project investment
